A Quick Note on eFormats:

If you prefer to read on a device rather than print books, eFormats are a great option! Libby and Hoopla are eBook and Audiobook platforms available through the library. Libby has an app, which you can download and read or listen to books, if you prefer to use your phone or tablet instead the computer. Hoopla does not have an app, BUT unlike Libby where you might have to wait for a book (we purchase a limited number of licenses to the book, similarly to how we purchase a limited number of print copies), Hoopla's titles are always available! If you need help navigating either platform, ask a librarian, we're happy to help!
